

## **DRUMBEAT FACILITATOR TRAINING REGISTRATION FORM**

The **DRUMBEAT**® program is an early intervention program for 'at-risk' youth and adults. The program uses a team drumming experience to teach a range of social skills and lift self-esteem.

Developed by the Holyoake Institute in Western Australia, **DRUMBEAT**® is run in primary and high schools as well as youth centres, drug rehabilitation centres, mental health facilities and prisons.

The program has attracted widespread interest for its potential to engage young people of different cultural backgrounds and transfer learning through an experiential process that is non-competitive. This experiential workshop covers the delivery of the multi award winning **DRUMBEAT**® social development program. This training is for health, education, youth and justice sector professionals working with youth or adult populations.

Under the direction of our Master Trainers, participants will gain expertise in utilising a rhythm based modality for the development of social learning and the exploration of relationship issues central to optimum psycho-social development.

This training will leave the participant with the skills to adapt the **DRUMBEAT**® program to the needs of their clients. The workshop includes innovative strategies for working with challenging behaviours and cementing the therapeutic relationship with those resistant to traditional talk-based interventions. Key exercises in the workshop utilise analogies drawn from the drum-circle to focus on addressing risk factors associated with unhealthy behaviours and criminality whilst building self-esteem, resilience and a sense of belonging.
